Runaway Elevator

Serious Accident to Four Men in a Vancouver Building.

One of a Series of Mishaps Connected With Unlucky Structure.

Steamer Hating Arrives From Skagway With News of the North.

From Our Own Correspondent.

Vancouver, July 24.—The Godson-Robertson building was again the scene of a serious elevator accident today. Seven men were on the lift at one time on the way to lunch. They gave the signal to lower to the engine tender, but the unusual weight of the men caused a too rapid descent of the elevator. The engine tender put on the brakes, but the elevator had gained too much impetus and broke itself loose from the cable. The elevator came down with a crash, carrying its living freight with it. Four men were badly hurt but no one was killed. J. G. Bell, sustained a double compound fracture of the leg; James Paul, a leg broken. The other two injured men were not seriously hurt. By a strange coincidence a number of accidents and misfortunes have followed those connected with the construction of the building. The architect who drew the original plans is in a sanatorium. Shortly after, a workman named Tenneway was injured by being struck by the elevator; a few weeks later Mr. Whiteway, supervising the architect's plans was struck by the same elevator. Yesterday Contractor Foreshaw fell down the elevator shaft.

Steamship Hating arrived from the north today with about \$100,000 in treasure. Prominent among the passengers were Mr. Bromley, manager for the Lord Ernest Hamilton syndicate, and Mr. Wade, who acted as crown prosecutor in the O'Brien trial. The latter says that O'Brien is writing to American friends in the north urging them to try and get him a new trial on the grounds that this last trial was not fair in all its details to him. Mr. Bromley states that his company now have about a mile and a half of claims on McKee creek, for which they have paid \$40,000, and have installed \$30,000 worth of machinery. They are now ready for the clean-up, which will be between \$25,000 and \$50,000 for the season. Mr. Bromley says that the camp is very quiet owing to capitalists having bought out all industrial holders and are cleaning up the creek on a wholesale scale.

Thos. McCaffery, manager of the government assay office, arrived in the city today. Mr. McCaffery says that Mr. James A. Smart, deputy minister of the Interior, will be here this week, when it will be learned whether or not the assay office will buy the gold outright, or allow the banks to handle it.

McKAY'S DEATH.

Details of Last Hours of Famous Missionary's Life.

Toronto, July 24.—(Special)—Details of the death of Rev. D. McKay, the Presbyterian missionary, have been received in a letter to a relative at Woodstock, from the son. His father was conscious within three hours of death, after twenty hours' intense suffering. All through his illness he was anxious about his work. Two days before his death he got up and stole out without anyone seeing him and went to Oxford college. A student found him and brought him back, but he insisted on returning. He took a chair and explained that he was about to conduct the annual examinations. His delirium lasted for some time. When his death was announced large crowds began to flock from all parts of the island. Few natives could restrain themselves from tears. Many did not partake of food for days. Some traveled as far as 50 miles to be present at the funeral.

BROOKLYN BRIDGE BREAKS.

Some of the Supporting Cables Snap and Cause a Panic.

New York, July 24.—About 6:20 o'clock a number of the vertical supporting cables of the Brooklyn bridge pulled out of their sockets and are now dangling in the air. The accident happened at the north side of the New York end of the bridge, and this end sagged from four to six inches. This completely stopped all street car traffic over the structure, but after a temporary delay, pedestrians and wagons were allowed to proceed. What caused the pulling out of the vertical cables is not known. The accident caused great excitement and the police reserves were called out.

RUSSIANS DEFEATED.

Report That Manchurians Have Beaten Them.

London, July 25.—According to native intelligence, says the Shanghai correspondent, the Chinese, Japanese and Russian troops have been seriously defeated by insurgents in the south-eastern part of Manchuria, and the rebels are now destroying the telegraph wires.

FLOODS IN HUNGARY.

Entire Towns Have Been Wiped Out and Many Persons Drowned.

London, July 25.—The valleys of the Danube and other Austro-Hungarian rivers have been flooded by violent rains, says the Vienna correspondent of the Daily Express. In Budapest 500 are made homeless. Entire towns have been wiped out. Twenty-six persons were drowned at Lipol, where houses of two stories were submerged.

KILL THEIR PRISONERS.

Turks and Albanian Insurgents Slaughtered Their Captives.

Vienna, July 24.—Albanian insurgents and Turkish regulars have had several encounters on the Turkish frontier. Many have been killed and wounded on both sides. It is reported that the Albanians cut off the heads of their prisoners, and triumphantly carried them on poles. It is also reported that the Turks massacred their prisoners.

SIXTY MILLIONS.

Estimated Wheat Crop in Manitoba and Northwest.

Winnipeg, July 24.—(Special)—The estimated yield of the Northwest Territory and Manitoba wheat crops is sixty million bushels. Many centres now report forty bushels to the acre.

SHOT FOUR MEN.

Insane Man Tries Wholesale Murder in Kansas.

Leavenworth, Kas., July 24.—Michael Kelly in a fit of insanity today shot four men of whom one has died, and two are probably fatally injured. The victims are: John Garrett, a prominent business man; Police Sergeant Dodge; Detective Mike McDonald; Dr. Claus. McGee. McDonald alone is expected to recover. Kelly, harboring a fancied wrong, entered Garrett's office unannounced this afternoon and without warning leveled a pistol at Garrett, who sat at his desk. Five shots resounded through the building in quick succession each bullet taking effect in Garrett's body. Garrett fell from his chair. Dodge and McDonald hurried to the scene. Kelly had reloaded his revolver and when the officers entered the office he turned upon them. Sergeant Dodge was shot through the throat and Detective McDonald received a bullet in the leg. A moment later, Dr. McGee summoned to attend Garrett, stepped into the office. Kelly raised his revolver and as the physician turned to summon help, Kelly fired. One bullet struck McGee in the back near the spine. The whole affair consumed five minutes. Officers finally arrived, overpowered Kelly, and placed him in jail.

Several years ago Kelly made an assault on Garrett's father, and today he evidently mistook John R. Garrett for the older Garrett in attempting to repeat the assault. Garrett died late this afternoon at the hospital.

FILIPINOS ENCOURAGED.

Told That if They Keep Fighting They Will Gain Independence.

Manila, July 24.—Col. Zubirano, with 29 officers, 518 men, 233 rifles and 100 bombs, have surrendered to Lieut. Hickman, of the 1st Cavalry, in Tayabas province. These former insurgents have taken the oath of allegiance to the United States and surrendered. This clears that district of the revolutionary element.

Correspondence from the Hongkong junta, addressed to the insurgent leader Ballarmin, which has been recently captured, says that he has received messages of sympathy and assurances of support from Messrs. Winslow and Levison, anti-imperialists, urging the Filipinos to continue their resistance in the hope of eventual independence, saying the American people are growing under war taxes and that the Democrats will win at the next election.

O'Brien Will Be Hanged

His Appeal to Ottawa for Executive Clemency Has Been Refused.

Cabinet Busy Settling Points About Visit of the Duke of Cornwall.

From Our Own Correspondent.

Ottawa, July 24.—George O'Brien, the Dawson murderer, will be hanged as the executive declines to interfere in his case.

Poultry raising experiments at Whiteby, Ont., which are being conducted under the superintendence of Mr. F. C. Hare, poultry expert, are proving a great success. Chickens just twelve weeks old under a diet of ground oats and skim milk and with a limited range for exercise have already reached a weight of three pounds eight ounces.

Officials of the accountants branch of the post office department were yesterday engaged in destroying books of cancelled stamps which have been paid in by newspapers, for postage during past years.

Sir Wilfrid Laurier has returned to the city and will be in town until Monday. Several cabinet meetings will be held in the meantime and points in connection with the visit of the Duke of Cornwall will be settled.

The master bakers of Ottawa have reached a compromise with the journeyman bakers under which the latter will not have to work at nights after the first of May next.

The Ottawa river mystery, over which the local papers came into hysterics for a week according to Provincial Detective Greer, is simply a case of suicide. Greer returned to Toronto tonight.

MAINE SEEMS UNLUCKY NAME

Has Caused One War and Now Makes Squabble Among Americans.

London, July 24.—The presentation on July 22 of a medal commemorative of the work of the hospital ship Maine to King Edward by the Duchess of Marlborough, Mrs. George Cornwallis-West, Mrs. Donalds and other American women of the Maine committee and King Edward's reply to the members of the committee in which he thanked them for bringing the valuable services to a culmination by presenting the ship to the British government, threatens to become an international incident.

The Atlantic Transport Company, and the friends of Bernard N. Baker, president of the company, are generally very indignant. C. F. Torrey, manager of the company, expressed himself as more than surprised to see King Edward had not been informed regarding the actual donor of the Maine, and said what surprised him still more was that the ladies accepted the thanks of the King for the gift, knowing full well that at no time had they owned the ship, and that President Baker alone was entitled to any thanks. Mr. Torrey said Mr. Baker was not even informed of the intention to present this medal to the King, nor up to today had any intimation been conveyed to him that such a presentation had occurred, nor has any expression of regret been made that this misunderstanding occurred as to the donor of the vessel. "The whole transaction is on a par with the seizure of the Maine's flag by Mrs. George Cornwallis-West," said Mr. Torrey.

"It will not surprise us if this flag is now presented with equal éclat to Queen Alexandra. Throughout there has been an utter lack of appreciation on the part of some of the Maine committee of Mr. Baker's assistance, and his apparent desire to have the committee has taken into itself the royal thanks for which it has no shadow of a claim."

Santiago Sea Fight

U. S. Admiral Schley's Conduct to be Inquired Into.

Will Have Opportunity to Show Whether He Was Not Cowardly.

Action in Court More Formidable Than Battering Helpless Spanish Ships.

Washington, July 24.—Secretary Long, in accordance with a request from Admiral Schley, today advised that officer that he would order a court of inquiry to examine into the entire matter of the Admiral's conduct at Santiago. Later the secretary announced that owing to the extreme bad weather, the court would not meet until September, and that he would turn over his reception room to the court. The Secretary said: "It is too hot now and I do not believe it would be very comfortable for officers to sit in their heavy full dress uniforms during August. I issued an order some time ago dispensing with the wearing of full dress uniforms during a court martial, but this case will be so important that every form of courtesy will be observed, and a guard will be at the door. I propose to give the court the use of the large reception room adjoining my office, which is a convenient and commodious place. 'Will the sessions of the court be open?' Unusually was the emphatic reply. 'I propose to make that fact very plain. The country has the right to know all that transpired in the way of testimony offered. Personally, I would be very glad to have a court composed of a large number of officers, but the naval regulations restrict me to the selection of three. I hope to name the personnel of the court tomorrow, and this will give the judges adequate and recorder ample time to prepare a list of witnesses who are to be summoned. This list will be quite lengthy, and take some little time to assemble the officers here."

"I do not believe that the session of the court will be prolonged, because after all a great deal of the talk over the Santiago campaign is like the genus vapor which can be condensed into a small bottle."

Admiral Schley will be offered every opportunity for the appearance of all the witnesses he may desire. He is also entitled under the naval regulations to be represented by counsel. While Secretary Long was not asked whether the court of inquiry would be asked to form and submit an opinion upon the facts disclosed by investigation, it is considered quite probable that this course will be pursued. Unless the order concerning the court expressly says this opinion is to be expressed, its report will be confined to stating the facts found.

SENATOR ALLAN DEAD.

He Was One of the Most Prominent of Toronto's Public Men.

Toronto, July 24.—(Special)—Senator G. W. Allan died this morning. George W. Allan was born in York, now Toronto, in 1822, and was called to the bar in Upper Canada in 1846. While at college he served with the Bank Rifle Corps in the rebellion of 1837. He early took an interest in public life, became an alderman of Toronto, and in 1855 was elected mayor of the city. In 1858 he was elected to represent York in the old legislative council, which position he held until confederation. In 1867 he was called to the Senate and always took a prominent part in that body. For many years he was chairman of the committee on banking and commerce, and in 1888 was appointed speaker, a position he held till 1891. In May of that year he was called to the Privy Council for Canada. He was very prominent in business enterprises and educational matters, being chancellor of Trinity College for many years, vice-president of the North American Life Assurance Company; president of the Western Canada Loan & Savings Company, and held several positions in a large number of societies. He was a Conservative in politics.

THE LOAN ACT.

Ottawa Will Not Interfere With the Present B. C. Statute.

Ottawa, July 24.—(Special)—Consequent upon amendments made by the British Columbia legislature at the last session to the Loan Societies Act of 1900, the federal authorities have decided not to disallow the measure of last year. The act above referred to, passed in 1900, was the Extra-Provincial Investment and Loan Societies Act, which assumed jurisdiction over all investment and loan societies doing business in the province. The amendment exempts from the operation of the act all companies incorporated under the statutes of Canada.

STILL BURNING.

High Temperatures in the States and no Rain for Corn.

Washington, D. C., July 24.—Thunder storms in the northern tier of the United States in the central valley, today gave some relief in that locality from the intense heat. In the corn belt, the intense heat still continues, and no prospect of rain. The maximum temperature line of 100 degrees today again encircled the upper Mississippi valley, lower Missouri valley, and the middle and lower Ohio valley. St. Louis reports a temperature 108 and St. Paul 104 degrees, both record breakers.

DROWNED.

Mr. Rioux and Miss Bechard Lose Their Lives Near Matone.

Matone, Que., July 24.—(Special)—This morning a double bottom accident took place here. Mr. Rioux, aged 29, of Sherbrooke, and Miss Bechard, a young lady about 24 years of age, of Compton, were in a sail boat. It was blowing strongly at the time and the sea was running high. The small boat was upset and both occupants were drowned.

M. P. COMING WEST.

Mr. McCreary Will Have a Look at British Columbia.

Winnipeg, July 24.—(Special)—Mr. and Mrs. W. F. McCreary left today for Victoria, B. C. Mr. McCreary, who is M. P. for Selkirk, will remain four days at the coast and will leave Mrs. McCreary, who is not enjoying good health, there to spend a few weeks. Mr. McCreary, before returning from the West will visit the Kootenays.

FOOT POWDER

Just the thing for those scalding, swollen, perspiring feet. A little dusted into the shoes will keep the feet in excellent condition.

GEO. MORISON & CO., The Leading Druggists
55 Government St. Phone 85.

Y. M. C. A. SECRETARY.

Appointed for Province of Ontario and Quebec.

OECIL RHODES.

Sworn in as Privy Councillor in London.

London, July 24.—King Edward held a privy council at Marlborough House this morning, when Mr. Cecil Rhodes was sworn in as a member of the council.

CANADIAN OFFICER.

Capt. Gundry Appointed to the West African Constabulary.

Goderich, Ont., July 24.—Capt. Wm. Gundry left this afternoon to join the West African mounted constabulary, to which he has secured an appointment. He was given a send-off at the station.

SPANISH ARMY.

A Move to Put it Upon a Proper Footing.

Madrid, July 24.—Premier Sagasta has announced the government's programme, which will include the re-organization of the army, the establishment of bases for naval operations and the construction of an arsenal on a vast scale.

BOERIS IN CAMP.

Parliamentary Paper Gives Official Number.

London, July 24.—A parliamentary paper issued today gives the number of persons in the concentration camps in South Africa in June as follows: White, 4,414; colored, 1,088; and natives, 1,727. The list includes 576 children. The deaths among the colored persons numbered five.

CANADIAN TRADE.

Toronto Wants Government to Retaliate Against Germany.

Toronto, July 24.—The Board of Trade wants the Dominion government to retaliate on Germany because of that country's tariff, which discriminates against Canadian goods. Secretary Russell, of the Canadian Manufacturers' Association, in a letter from an English business man who says Canadians should wake up; that in spite of the big demand for Canadian products Canadians are slow to take advantage of it. He says Americans are swamping the country with their products.

THE UNION JACK.

Pan-American Officials Find Pulling it Down Does Not Pay.

Buffalo, N. Y., July 24.—The British flag incident, which was transformed by sensationalists from a mole hill to a mountain, has been laid to rest. The flag, originally taken out of Ontario's booth in the Ethnology building because they did not conform to a general scheme of decoration—not because they were British—have been taken down. Hon. Richard Hann, minister of education for Ontario, was in Buffalo yesterday, and he had a conference with Dr. Benedict, superintendent of Ethnology, with the result that the incident, which never was of any particular importance, was closed for good and all.

VANCOUVER FAIR.

Street Fair to be Held in Terminal City Next Month.

Mr. W. H. Lucas, the secretary of the Street Fair, which is coming off in Vancouver between August 5 and 10, was seen on his arrival from the Board of Trade by a representative of the Colonist regarding the objects of the Carnival.

Mr. Lucas said that the fair, while a novel idea in Canada, was no new thing in the United States, where it had caught on in the last few years. It was a modification of the Old Country fair, with this important change that whereas the old fair took place out of the city, the new fair brought visitors right into the heart of the city.

Wherever it has been held, Mr. Lucas declares, the fair has been such a success that the business people always want it back. It has held two years in San Francisco, and will go back there this year. It was held for the first time last fall in Portland, and will go there again this autumn.

The idea is to attract people to the city by putting on a first class series of entertainments, and then to hold the visitors by an exhibit of the natural resources of the country, and a display of the businesses in operation in the city.

In Vancouver booths in which the leading stores and mills of the district and city are represented. Besides this there are exhibits of minerals, of lumber of the fishing and other industries. Leading merchants, and even the churches are lending a hand to make the thing a success. The ladies of one congregation are holding a bazaar in the middle of the grounds. An unusual number of women are doing much the same thing.

As to the amusements, they are indeed various. There are numerous bands, scenes and model villages from Europe and Africa, performances of the exhibitions which were held in Chicago, Paris, New Orleans, Omaha and Buffalo. There are dancers and trapeze performers, tigers and camels, menageries and Turkish bands, whirling dervishes and Syrian jugglers, moving pictures and music to suit all tastes.

Excursions have been arranged from ports on the Sound, from Nanaimo, Victoria, New Westminster.

The amusement part of the show is run by Mr. George Jahn, who originally came to this country from Syria for the Chicago exposition. He has a show which requires a special train of eleven cars to accommodate it, and has 145 performers, and which Mr. Lucas says will be worth in the vicinity of \$50,000.

Will be found an excellent remedy for sick headache, Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them.

E. & J. BURKE'S OLD IRISH WHISKY

Especially suitable to those who do not like strong flavored whiskies. The extreme softness, mellowness, and fine character are produced by age and high quality.

Sale by all Leading Grocers and Wine Merchants.

Rescued by The Rosalie

Narrow Escape of Two Sailors From Drowning Off Clover Point.

One Saved While Clinging to Upturned Boat the Other Swims Ashore.

W. S. Brown and C. Chambers, two young Englishmen who arrived here about three months ago, and are resident with Mr. Sexton at the Brunswick hotel, Chambers being a distant relative of the hotel proprietor, had a narrow escape from death by drowning in the chilly water of the Straits off Clover Point yesterday afternoon. The two young men, who have been accustomed to sailing craft—hired an open boat, carrying a sail, yesterday afternoon, and went out to cruise in the Straits. They were about a mile off the shore, when they turned their boat around the sail suddenly jammed, and before they could free it, a sudden squall capsized the boat. Both occupied in saving themselves from very cold water, and to save themselves from drowning clutched the gunwales of the boat, which was dragged to its upright position by their struggles, filled with water. The sail and broken free, and the boat was left afloat. The boat for some time, Chambers decided to make an effort to swim ashore, for it seemed that none had seen the accident. The extreme end of the point was about a mile away, but tearing off his clothes as well as he could, Chambers decided to make the attempt, and succeeded after a struggle. He had a hard time in making a landing on the jagged rocks at the end of the point, and cut his legs and feet, but he landed, and struggled ashore, and made his way up to the Cliff House, where as soon as he could make known his companion's danger. Chambers and others put out in a boat to the rescue.

About the same time the engineer of the steamer Rosalie, which fortunately for Brown was late yesterday, owing to heavy freights, desisted the upturned boat, and the unfortunate man hanging from the mast, was rescued by the Rosalie. The Rosalie, which was past the scene, for she was past the upturned boat when the engineer sighted it, the strong rays of the sun on the water preventing the sighting of the unfortunate man. The Rosalie, which was past the scene, for she was past the upturned boat when the engineer sighted it, the strong rays of the sun on the water preventing the sighting of the unfortunate man. The Rosalie, which was past the scene, for she was past the upturned boat when the engineer sighted it, the strong rays of the sun on the water preventing the sighting of the unfortunate man.

When he was rescued by the steamer, he was taken to the smoking room and wrapped in blankets, after his wet clothing had been removed, laid beside the smoke stack, and efforts were made to have him take some warm brandy to revive him. He refused all offers of brandy or other food, and when he said he had never tasted spirits and would rather die than do so then. One of the waiters made him a hot cup of coffee, and this helped to revive him. On reaching the Brunswick hotel, he was attended by Dr. Fraser, and was rapidly recovering last night from the effects of his chilling.

Chambers, his companion, lost his watch and money, as well as all his clothing, and was left in a state of distress. He was taken to the hotel and wrapped in blankets, and his wet clothing had been removed, laid beside the smoke stack, and efforts were made to have him take some warm brandy to revive him. On reaching the Brunswick hotel, he was attended by Dr. Fraser, and was rapidly recovering last night from the effects of his chilling.

Chambers, his companion, lost his watch and money, as well as all his clothing, and was left in a state of distress. He was taken to the hotel and wrapped in blankets, and his wet clothing had been removed, laid beside the smoke stack, and efforts were made to have him take some warm brandy to revive him. He refused all offers of brandy or other food, and when he said he had never tasted spirits and would rather die than do so then. One of the waiters made him a hot cup of coffee, and this helped to revive him. On reaching the Brunswick hotel, he was attended by Dr. Fraser, and was rapidly recovering last night from the effects of his chilling.

Riojun Maru Reaches Port

Brings News of a Boxer Outbreak and Massacres in Mongolia.

Dolphin Arrives From Skagway—Steamer Tees Sails North Tonight.

Steamer Riojun Maru arrived from Yokohama yesterday after a passage of fourteen days, having left there on July 10. She passed the steamer Duke of Fife the first day, the Northern Pacific steamer having left the same day. The Riojun brought seven passengers, two for Victoria and five for the Sound, twelve Chinese, five of whom left the vessel here, and 25 Japanese, three of whom were women, all bound to Seattle. She brought 6,800 packages in 111 boxes, of which 1,512 packages were landed here. The passengers were Lorenzo Prince, who is circling the world, as told in another column, for La Presse of Montreal; Messrs. Davidson and Taylor, from Assam; James Stewart O'Neill, from Chennulup; Prof. T. S. Gerry, Misses A. and E. Gerry, from Yokohama; J. E. Rhodes and Commander T. Imidzumi. The Riojun Maru was in command of Capt. Ohno, who was formerly on the Bombay and Vladivostok lines of the N. P. Co. His command makes the first visit of any vessel with a Japanese master to this port. The steamer of the Japanese line arriving here for the first time has European masters and mates, but Capt. Davis, having been held at Yokohama pending an inquiry into an accident there, Capt. Ohno brought over the Riojun.

News was brought by the Riojun of a serious Boxer outbreak in Mongolia and southeastern Manchuria. According to information obtained by Mr. Prince during his journey through Manchuria, there is an insurrection in that part of the Chinese province, which the Russians, who have assumed charge, are totally unable to quell. The Chinese, who have raised the standard of revolt, are killing numbers and much trouble is threatened. In Mongolia the rebels have been guilty of a bloody massacre. There many priests have been murdered and a large number of native Christians. According to reports brought to Talyan-fu by the escort sent to Mongolia to suppress the foreign priests, fifteen of the fathers were murdered in Ninghsia-Liang, a place on the border of Shansi, and about midway between Yu-Lin and Ninghsia. Not only were the foreigners killed, but all the native Christians were annihilated, and the girls carried off into the interior of Mongolia. There are two reports as to the perpetrators. One is that the troops of Tung Puhshing and Prince Tuan swooped down on the defenceless foreigners. The other story is that a leader of the Mongolian prince, who are very angry at peace having been made with the foreigners, rallied an army determined to fight them, and so began with these missionaries.

HILL'S MONSTERS.

Freight Carriers of Great Northern Service to Be Ready Next April.

J. J. Hill, president of the Great Northern railway, while in Seattle spoke to reporters there concerning the new steamers which are being built for the Pacific route from Seattle and Victoria to the Orient. He said the two monster freighters will be completed in April of next year, and will be placed in commission two months later. The new vessels, which will be of steel and twin screw steamers, are of 28,000 tons burden, and they will be much larger than any cargo steamer sailing on the Pacific, or any other sea, for that matter. The biggest cargo ship on the Pacific is the Algonquin, which has a capacity of 13,000 tons, and the new liners of the Great Northern are to carry over twice that amount of freight.

CHINESE ARE ARRESTED.

Five Alleged to Have Been Smuggled Into Seattle on Small Sloops.

Yesterday morning five Chinese were arrested by Immigration Inspector Fisher, Customs Inspector Delaney and Deputy United States Marshal Stringer on the grounds of unlawful immigration to the United States, says yesterday's Seattle Post-Intelligencer.

The Chinese, it is alleged, were smuggled into this port yesterday morning on a small sloop. They were landed safely, but were discovered in a shack near the Centennial mill, where they were arrested.

MARINE NOTES.

Ship C. F. Sargent arrived at Port Townsend on Tuesday night. The ship was seriously injured. The vessel was off Port Angeles when Norton fell from the mainmast topmast yard, striking Mate McCarty on the shoulders and injuring him so severely that he was sent to the marine hospital.

The Lorne yesterday towed the ship Balclutha into the Esquimalt marine railway, where the vessel was hauled out this morning to be repaired, cleaned and painted. After towing the Balclutha to Esquimalt the Lorne proceeded to Port Townsend to tow the German ship Louise to sea.

Steamer Guernsey leaves Esquimalt today.

Steamer Duke of Fife, of the Northern Pacific line is due today from the Orient. She has four hundred tons of general freight for the outer wharf.

R. M. S. Mowara arrived at Brisbane on July 3 from this port via Honolulu.

Steamer Hating arrived at Vancouver yesterday from the North, and Capt. J. Gossio was a passenger on the Charnier from Victoria last night.

Steamer Tees will sail tonight for Nans and way ports. Among the passengers who will sail on her are J. H. Gray, C. E., and a party of engineers and assistants, who will locate a route for the Klondike and Yukon railway on half of the Northern Pacific & Canadian Railway Company. From Vancouver the steamer will take up a party of carpenters under Mr. Morton, who go to build the Lawyer Island light-house, off the Skeena river, for the Dominion government.

The bark Highlands is still here, not having been able to secure a crew with the security of seamen existing all over the Northwest. She is lying off the outer wharf, and on Tuesday one of those on the bark getting thirsty and not being able to secure a boat to come ashore, jumped from the vessel's bulwarks into the sea and swam ashore. He was afterwards taken back to the vessel.

Steamer Dolphin arrived at Port Townsend yesterday morning from Skagway after a fast trip, and Capt. George Tolbert, master, who had been with one of the owners of the Alaska Steamship company, arrived here last night.

The Utopia went to Vancouver yesterday and will go thence direct to Seattle. She will not return to her regular trips to Victoria until Saturday.

But, my son, said the fond parent, if you do not attend school and college regularly you will never be regarded as an intellectual being.

Oh, yes, I will, responded the fatherless youth. I intend to make a few million and then endow colleges, and thus acquire the respect of a college education. With eyes moist with tears he said, "I will do it, my father, but I will do it on my own path of destiny."

COLLEGIATE EXAMINATIONS

Reports Received From the Examiners by the Head Master.

The following reports of the recent examinations of the Collegiate school have been received by the head master, Mr. J. W. Laing, M.A., Oxford:

H. M. S. Watsupite,
Esperanza Inlet, B.C.
July 14, 1901.

Dear Mr. Laing: In accordance with your request, I have examined the highest forms of your school in mathematics, and I send you herewith the marks obtained. In arithmetic a general paper was set for the whole school. Dart and Todd I. obtained full marks, Harrison I., Hamilton and Potts over 90, Leiser and Houghton 80 per cent. In algebra different papers were set to the four divisions. Perhaps that for Division I. was a little too difficult, as no one obtained half marks. In Division II, Etting obtained 90, and in Division IV, no less than eight obtained over 90 per cent.

In English, in Division I, Dart obtained 85, in Division II, Potts 85, and in Division III, Kerfoot 94 per cent.

On the whole the work has been very well done, and the neatness and good writing have very much facilitated the looking over the papers.

I am, yours very sincerely,
ARTHUR J. PARISH,
M. A. (Cantab), R. N.,
Naval Instructor,
Victoria West, July 23, 1901.

Dear Mr. Laing: The marks enclosed speak for themselves. In the Sixth Form, Dart has distinguished himself in all English and French subjects, and stands high in Latin. He has also the highest percentage on the whole. Hamilton did very good papers in Latin, good in French, very good in dictation, essay and English literature. Kerfoot took the highest marks in French, but fell off in Latin and Divinity. In the Upper Fifth Form, Potts took the highest marks in the school for the English essay and is bracketed with Dart in English literature. Bell did excellent work in Latin, French and English.

In the Lower Fifth Form, Kerfoot stands first, showing an average of good work all round.

In the Fourth Form, Houghton and Armistage I. show the best marks.

You will see by the results that there is a general standard of excellence, which testifies to the painstaking and thorough work of the form masters during the past half year.

I have the honor to remain, yours faithfully,
W. D. BARBER, M.A.,
Bishopscote, Victoria, July 24, 1901.

My Dear Mr. Laing: As the Archdeacon has made this year to be an examiner, I consented to help Mr. Barber in his work and set the papers for the Third and Upper Second Forms. You will be glad to know that my report is decidedly satisfactory. The boys show signs of having been carefully and intelligently taught, and there is no trace of anything appearing that system of cramming which is true educationalists must abhor. The answers are given in the boys' own words, and evidently not from books. The writing and spelling of some of the papers is excellent, and all, with perhaps two exceptions, above the average. The civic authorities might read with advantage some of the essays upon Government street, Victoria.

In Divinity the papers on the Acts were very well done, and in the Old Testament there is a decided improvement in knowledge, compared with an examination which I held three years ago. The boys all showed a satisfactory knowledge of English history. In arithmetic the average number of marks was high, and one boy, Holden, would have obtained the full number if he had only tried a simple problem. In the Third Form, Holden, Garnett and Spencer I. have all done good work, and in the Upper Second, Armistage H., Todd II. and Martin Couper did well in mathematics, and Spencer II. in geography.

I have been glad of the opportunity of thus carefully testing the work of these classes, and I need not tell you that I am thankful for the result, as you know the deep interest that I take in the welfare of the school.

I am, yours sincerely,
W. W. COLUMBIA,
Victoria, July 17, 1901.

Dear Mr. Laing: I send herewith a report of the examinations which I conducted in the Junior classes of the Collegiate school. I was much pleased with the excellent knowledge of Scripture displayed. My questions covered an important portion of the Gospel of Saint Matthew, and I was much struck by the intelligent grasp of Scripture fact and truth made evident during the course of the examination.

I was also much impressed by the bright and gentlemanly manners of the boys. With kind regards and best wishes for the success of your valuable school, I remain, sincerely yours,
J. D. O'MEARA,
Dean of St. John's Land, Deputy Warden St. John's College, Winnipeg.

The following promotions have been made in the school:

Upper Fifth to Sixth Form—Bell, Leiser, Potts.
Lower Fifth to Upper Fifth Form—Newcombe I., Kerfoot.
Fourth to Lower Fifth Form—Houghton, Todd I., Marshall, Newcombe II., Armistage II.

Dean of St. John's Land, Deputy Warden St. John's College, Winnipeg.

These Symptoms Are A Warning to You

That the blood is losing its richness and the very life itself is being sapped from brain and nerves. You feel weak and run down. You get pale and sallow, with dark rings under the eyes. You lose flesh, and the food you eat does not seem to nourish you. Your hands and feet get cold. You are nervous and irritable. Little things worry you. You suffer with headache, neuralgia and nervous dyspepsia. You grow melancholy and depressed at times, find your memory failing, and feel unable to concentrate your thoughts.

This is the train of symptoms which lead to nervous prostration and paralysis, or land their victim in the epileptic hospital or insane asylum. Nearly everybody needs a nerve restorative and blood-builder at certain periods in his life. When nerve cells are being wasted away more rapidly than nature can replace them, collapse is certain, unless some means is used to assist in enriching the blood and creating new nerve force. Dr. Chase's Nerve Food is the most effective preparation obtainable for thoroughly restoring richness to the blood, and strength and vitality to the nervous system.

Dr. Chase's Nerve Food

50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

Third Form to Fourth Form—Spencer I., Holden, Potts I., Harrison I., Upper Second to Third Form—Todd II., Armistage II.

Dart has passed the matriculation examination for McGill University with a percentage of 63.0.

The collegiate school will re-open September 9, at 2:30 p.m.

LOSS OF FLESH.

If you find yourself falling below normal weight there is danger. The use of fish oils can temporarily add fat, but will never build up healthy tissues. Dr. Chase's Nerve Food acts through the blood and nervous system and carries new life and energy to every nook and corner of the body. It regulates the various organs of the body, makes the appetite good, adds healthy flesh, and replaces the tissues wasted by disease. Naturally and gradually this food cures restores color to the cheeks, increases the weight of the body and thoroughly overcomes disease.

BEN WILLIAMS & CO.
Stock Brokers and
Commission Agents

TO THE PUBLIC:—
We are prepared AS YOUR AGENTS to place orders on the New York Stock and Exchange for Canadian or American Railway or Industrial Stocks, and for Wheat, Corn or Pork, either for delivery or for future months. We have leased wires through Messrs. Downing Hopkins & Co., of Portland, Ore., and Messrs. E. Lobdell & Co., New York Stock Exchange.

You are invited to our offices 44 Fort Street, and to Bond Street, where confidential telegraphic quotations of the leading Stocks and from the New York Grain Market are to be seen. Quotations received between 7 a. m. and 12:30 p. m.

Finance and Commerce

ON WALL STREET.

New York, July 24.—The dullness and the feeble fluctuations in prices in today's stock market reflected a lagging of speculative interest. This morning the fact had been made obvious that yesterday's violent recovery in the prices of stocks had been principally based on the release in the grain markets, rather than on a general movement from the grain crops, while the movement in the grain market had been based largely on technical causes. The consequence of this revised view of yesterday's movement was some renewed misgivings that yesterday's reported benefit from the release had been overstated. These misgivings were accentuated by published estimates from exhausting inquiry, showing heavy demands already being made on the crop, and the sharp opening declines, however, met considerable effective support and rallies followed. The weakness was again renewed, however, the grain markets opened and showed notable strength both for corn and wheat, the resulting declines being confined to the railroad list. Money and conditions again became somewhat more pronounced as a factor in the activity of speculation. It is realized that the heavy liquidation in stocks of the last few weeks had in view preparations to meet the crop moving requirements, and not renewed speculation. The transfer of funds from New York through dealers at the sub-treasury is the signal that crop requirements have begun. The necessity must thus be realized of adjusting speculative demands upon the money market to this prior and more urgent requirement. The peak of demand for the grain market was evident from the confused and irregular movement of prices. An attempt was evident to lead an upward movement by pulling up Union Pacific and the Wabash, and there was some show of firmness amongst the Southern railroads and several other soft coal carriers. But the market yielded at last to renewed weakness when the room traders attempted to take their profits and the lower order for the grain and Pacific were made slightly before the close, which was feverish and irregular. At the lowest the declines of the morning Pacific, 37; St. Paul, 35; Union Pacific, 34; Atchafalaya, 25; Kansas & Texas, preferred, 26, while in the general list declines of 1 and 2 points were very general. The railroad bond market was dull and heavy. Total sales ran up to \$1,315,000. United States new fours declined one-quarter per cent on the last call.

RESERVE.
Notice is hereby given that all the unappropriated Crown lands situated within the boundaries of the following areas are hereby reserved from pre-emption, sale, or other disposition, excepting under the provisions of the mining laws of the province, for two years from the date hereof, pursuant to the provisions of sub-section (5) of section 41 of the "Land Act," as amended by section 6 of the "Land Act Amendment Act, 1901," to enable the Pacific Coast Power Company, Limited, to select therefrom timber limits for wood pulp and paper manufacturing purposes, as provided by an agreement bearing date the 13th day of June, 1901, viz:

Area 1.—All the surveyed land on both sides of Kingcome River, and the land surveyed between Kingcome Inlet and Bond Sound.

Area 2.—Commencing at the northeast corner of Lot 1; thence following up the river at the head of Thompson's Sound and its branches, a distance of ten miles, and having a width on each side thereof of one mile.

Area 3.—Commencing at the northern boundary of Lots 45, 55 and 56, on the Klondike River; thence north along the said river and its branches five miles, and having a width on each side of one-half mile, including all surveyed lands.

Area 4.—Commencing on Wakeman Sound at the southwest corner of Lot 41; thence west on the first parallel of latitude to a point north of Embury Lagoon; thence south to said lagoon; thence southwesterly following the passage between Kinniford Island and Pandora Head to Mills Passage; thence to Queen Charlotte Sound; thence southeasterly along the shore line of Noel Channel, and easterly along the centre of Fife Sound to Village Point; thence north westerly to the north of Trivet Island to the mouth of Kingcome Inlet; thence north along the west shore of Wakeman Sound to the point of commencement.

Area 5.—Consisting of Harbledown and Turner Islands.

MR. BODWELL'S LETTER.

We print this morning a letter from Mr. B. V. Bodwell in regard to the proposed survey through the Hope Mountains. Mr. Bodwell takes exception to this proceeding on two grounds. One is that the government has no authority to make the expenditure, there being no vote applicable to it, and the other that it is a mistaken policy, for the second part of his letter may be included under that general term.

On the first point we may state specifically that the expenditure will be made out of the grant for surveys made at the last session of the legislature. We may anticipate the obvious objection to this, namely, that no such survey was contemplated when the House passed that vote. This is quite true. As nearly as we remember, what occurred when this item went through the Committee of Supply, nothing whatever was said about it. The House simply voted a block sum for surveys. What that vote meant is a matter for the government to decide at present. We hold it to be a constitutional principle that the government, having obtained a vote for a special class of services, is at liberty to say in what manner it shall be expended. It is to be assumed that, having decided to employ this vote for this particular service, the government is prepared to do so. A substantial reason to satisfy the House that the decision can be justified. If not, the House has the remedy in its own hands, and we fancy that Mr. Bodwell will not hesitate to suggest what it is.

On the question of policy, there may be room for a difference of opinion, but the government has to take the responsibility for the course it has chosen to follow. It is true that the Loan act of last session provides that no subsidy shall be paid for the Coast-Kootenay line until the whole road is constructed and security is given for its operation and maintenance, but if it is true, as is freely alleged, that a route through the Hope Mountains is not available, except at a cost or with such grades as would be practically prohibitory, surely the people of the province ought to know it. If it shall be ascertained that a feasible line exists, the government and legislature will be free to proceed and make the best bargain possible for the construction of the railway. If no such line can be found, such portion of the Loan act as applies to the proposed road may be safely repealed and the aid offered therefor may be devoted to some other project in which the people are interested. There would be no sense in keeping upon the statute book an offer of aid for a line which there is no likelihood that any one will build. Indeed such a proposed subsidy would in the way of the flotation of any provincial loan in the future. It would be an element that would always have to be explained away when reckoning the probable liability of the province under its railway aid acts. The people of the province, expect the government to carry out a railway policy. A very large section of the population considers the Coast-Kootenay line to be an essential feature of such a policy. It seems therefore eminently proper that, inasmuch as doubts have been expressed as to the feasibility of the line through the Hope Mountains, the question should be set at rest. If no available path can be found, the direct Coast-Kootenay line will be eliminated from provincial policies.

Mr. Bodwell points out that the company which he represents made an offer to build the line, and says it may be assumed that the company is satisfied that a feasible route exists. We note that he does not say that his company is satisfied on this point, which omission destroys the effect of his argument. If Mr. Bodwell's company knows of such a route, it must have sufficient evidence at its command to satisfy others, but this evidence has not been forthcoming. He may reply that his company is will-

ing to take all risks, but surely he would not ask the government to tie the province to any enterprise, that might not be carried through even though the failure to carry it through might not involve the province in the payment of any subsidy. The government and legislature have a right to know whether a feasible route can be found, and ought not to be satisfied to grant a subsidy and have a company take the responsibility of finding a pass.

In regard to the profile, which Mr. Norman McLean is said to have filed, we have the authority of the Chief Commissioner of Lands and Works for saying that no such plan is in the department. Mr. Bodwell's query as to what company Mr. Dewdney will be acting for can hardly be put seriously. As to the value that gentleman's report will have in the opinion of a company, we do not know that this is in issue. The report is to be made first for the information of the government, and then for the information of the legislature and the public. It is designed to make the way clear to the settlement of a much-debated question, and we think the government will experience no difficulty in justifying the ordering of the survey to the House and the country. In a small way the provincial government is doing what the Dominion government did in the case of the Canadian Pacific, that is, it is settling the feasibility of a route along which public opinion demands that a railway shall be constructed, if it is at all feasible.

To this we may add that, no matter what might be the nature of a contract entered into between the government and a railway company, if after both ends of the line were constructed, it should be found impossible to construct the mountain section, a demand would certainly be made upon the legislature for a subsidy for the completed portion, and we all know how desirable it is to avoid any such a possibility. It is far wiser for the government to ascertain for itself if a line can be built, before making an agreement with a company conditional upon its construction.

A WORTHY APPEAL.

We are in receipt of the following from Bishop Ridley in regard to the sufferers from the fire at Metlakahla:

I am so persuaded that if the British Columbia people knew how to help us in our sore distress it would do so. During 22 years of toil, I have never directly appealed to my neighbors; but have laid all our need before God, who has opened many hearts to promote our work among the children.

Think of the three institutions side by side accommodating 120 children burnt up! Everything a prey to the devouring flames. There, without shelter, huddle the little ones round their helpless but brave and devoted missionary lady teachers! My heart almost breaks as I think of the desolation.

The Indian department makes a capital grant towards the maintenance of the Indian children, beyond which private beneficence bears the burden.

The "White Home," as we call the institution for half-breeds and white children, depends entirely on private enterprise. We ask not of the ancestors of the children, but admit all as far as the accommodation will allow us. Many are orphans. The parents able to pay a dollar, or half, or even a quarter of a dollar a week are few.

Whether paid for or not all alike share the advantages of a bright and happy home, and an excellent education. The first thing to be done now is to forward supplies of food, clothing and bedding.

Please send me, or to the senior lady missionary, Miss West, at Metlakahla sacks of flour, rice, oatmeal, potatoes and other foods. Also clothing for both sexes. The children range from six to sixteen years of age. Send also blankets, sheets, pillows, mattresses, bedsteads and other furniture. Send money even at some sacrifice. Before the winter some shelter must be provided. Doubtless the banks would receive contributions.

To provide for the children is all I ask, and for that alone will contributions be expended. The steamer Tees sails for Metlakahla on Thursday, the 26th inst., at 11 p. m. Send by her all you can spare, and God bless all the helpers.

We need not add anything to what Bishop Ridley says in the above. The case must commend itself to every person, and we are confident that the appeal for assistance will meet with an instant and generous response.

The Tees sails for the north tomorrow night, and she ought to carry with her a fine contribution to meet the immediate necessities of the children on whose behalf the appeal is specially made. The Colonist will receive and acknowledge all subscriptions. We have little doubt that plenty of food will be forthcoming. These may not be enough clothing, and we ask the lady readers of the Colonist to make an effort to get as much of it together as possible. If parcels are sent to this office, we will undertake to see that they are duly shipped. The list of wants set out by the Bishop is so varied that almost every one can give something. Let the contribution of Victoria be prompt and worthy of the deserving object.

ORIENTAL TRADE.

No one has given greater attention to the possibilities of Oriental trade than Mr. James J. Hill, the President of the Great Northern Railway Company. Moreover he has shown his faith in that regard by directing the construction of two of the largest steamships in the world to carry freight between Puget Sound and the Orient. He is a far-seeing man, one who does not plan only for today, but ever has an eye to the developments of the future. Recently Mr. Hill said that the 75,000,000 people of the United States are supported more or less directly by the trade with Europe and Africa with their 400,000,000 population. "On the other hand," he said, "there are a thousand million people off our western coast with whom we could trade." The remark was made with special regard to the United States, for although Mr. Hill is a Canadian born, he is devoted heart and soul to the material development of his adopted country.

What he says, however, applies with equal force to Canada. This country can claim a share of the great trade to be developed equally with the United States, and we think with better prospects of success. "Grain and flour," said Mr. Hill, "will be the prime articles of export to the Orient," and these, he says, must be produced on the Pacific Coast. By this he explains himself to mean the great district one thousand miles square lying west of the fertile prairies, the arid lands, in other words, of the United States. He claims, therefore, that the

Our Big Annual Stock Taking Sale!

Commences Friday Morning
WE START TO TAKE STOCK ON AUG. 1

In order to reduce our stock as much as possible before that date we intend holding a big stock taking sale.

This sale starts on FRIDAY MORNING, and we would advise intending purchasers to visit us as early as possible, as the snaps we are offering are the kind which are soon picked up.

Below we quote just a few of our many bargains

VICTORIA, B. C.

Made by CANADA CYCLE AND MOTOR CO., Ltd.
TORONTO, ONT.

United States government must develop a policy of irrigation, so as to make these vast areas productive. "At present," he says, "rates are prohibitive on grain and flour from the Middle West." He points out that the work of reclaiming the arid lands is an enormous one.

These considerations deserve the most serious consideration from the people and government of Canada. We have in the Dominion a vast area adapted for the production of wheat. It is as near the Pacific ocean as are the greater portions of the arid lands which Mr. Hill is so desirous to see reclaimed. There is in our province very considerable land that is or can be made fit for the production of grain of one kind or another. Mr. Hill proposes that Congress shall authorize the issue of \$100,000,000 in 2 per cent. bonds to be employed for the purposes of irrigation. A very much smaller amount than that would bring a vast region ready now for the plough and fertile enough to yield the finest wheat, in close touch with the Pacific Coast. The region is in Canada, and it ought not to be difficult to secure the construction of railways to carry such grain on terms that would make the freight rate favorable to the immediate development of traffic. The United States has a great region that may be made available for the production of grain by the expenditure of a large sum of money extended over a long term of years, and from this the Orient may be supplied with the grain and flour, which Mr. Hill says it will take in ever increasing quantities. Canada has the land all ready for immediate occupation. All that is needed is to provide transportation facilities. As we have said, this can be done for a very much smaller sum than it will cost to reclaim a similar area of arid land in the United States, and there is not an equal area there any way. Surely the Great Northern's President has pointed out the way in which the government of Canada should advance.

The Colonist has again and again urged Sir Wilfrid Laurier to turn his eyes westward and see what can be done in this part of the Dominion to build up the

great country, which we are satisfied he desires Canada to become. If ever we pressed this view earnestly, we desire now to add to that earnestness. Great things are being accomplished in connection with trade with Europe, but far greater things can be brought about in connection with trade with the Orient.

TINNED CANADIAN

BUTTER

Manufactured by

PIERRE DE BACOURT

SCOTT JUNCTION, QUEBEC.

Agencies at—

Glasgow, Scotland
Rio de Janeiro, Brazil
Vancouver, British Columbia.

This Butter represents a successful effort to meet the requirements of Ship Stores, Mining and Logging Camps, the Export Trade or any and every condition wherein butter must retain its original good qualities for an indefinite period. It has kept good over two years in a tropical climate.

It is made from the choicest creamery butter and equal to the very best Danish and Norwegian brands, where whose processes it is packed.

It is worked dry and contains no more than 10 per cent water.
It is not packed in brine or pickling; each tin being entirely full of pure Butter only.

The tins are smaller than other brands wherein brine is used, an important consideration in the question of freight charges.

It has received ten prizes and four medals—has won many encomiums from the Canadian and British press and particularly at Glasgow, where it is on view at the Exhibition.

The Government analysis proclaims it "positively pure."
It is fastly put up in hermetically sealed tins; very handsome packages of 1-2, 1, 2, 4, 5, 7, 11, 28 Lbs.

88 Government St., near Yates St.,
Victoria, B. C. OPEN ALL THE TIME.

Hospital Supplies.—The time for receiving tenders for supplies for the Royal Jubilee hospital expires at noon today.

P. N. and O. R.—J. H. Gray, C.E., has about completed arrangements to begin the work of surveying the route of the Pacific Northern and Omineca railway from Kitimaat to Hazelton. The party will go north tonight by the Tees.

Dog Thieves.—Mr. W. H. Bone of Topaz avenue, reported to the police yesterday morning that two valuable dogs had been stolen from his premises, one a hound and the other an Irish setter. The hound returned during the day, but the Irish setter is still missing.

Short Session.—There were but two cases in the city police court yesterday. One was that of an ordinary drunk, who was fined \$2.50, the other that of a vag, who, failing to appear, a warrant was issued for his arrest. It is supposed that he took the hint conveyed in the "blue paper" and left the city.

Accidental Death.—A coroner's jury empaneled to inquire into the cause of the death of William Croighton, who fell from a telegraph pole yesterday, brought in a verdict of accidental death. Friends of the deceased in the state of New York have made inquiries with the view of having the remains sent east.

Union Outing.—The members of the B. Y. P. U. of Calvary Baptist church held an outing at the Gorge last evening, leaving the city at 6:30. A landing was made at the Gorge and a pleasant evening spent in games. Refreshments were served by the ladies of the union.

Pleaded Guilty.—James Connelley, the blue-jacket arrested on Tuesday, as told in the Colonist yesterday, for having in his possession a bicycle stolen from James Fraser, of Beach Cottage, Esquimalt road, pleaded guilty to the charge in the provincial police court yesterday. A part of the bicycle was destroyed. The bicycle was practically destroyed.

Semi-Annual Meeting.—The semi-annual meeting of the Victoria Building Society will be held on Tuesday evening at St. William Wallace Society hall, Broad street. To receive the secretary's report and financial statement for the past half year, and such other business as may be brought before the meeting. 2. The holding of the 84th drawing for an appropriation.

Running Deer.—It is said that a number of hunters, taking advantage of the absence of the provincial police on the Fraser river, have been running deer with dogs in Saanich district. This is a double offence, as running deer with dogs is illegal and this is the close season. A party of campers just on the outskirts of the city are also said to have offended in the same manner.

Back from Dawson.—The steamer Hating, which arrived at Vancouver yesterday from Skagway, brought down a number of passengers for Victoria, including A. R. Milne, collector of customs, who went as far as White Horse with Chief Inspector Michael; A. G. McCandless, the Johnson street merchant, who has been to Dawson on business, and others. Capt. Gossie, the master of the Hating, also came down to visit his family.

The Last Rites.—The funeral of the late William S. Sutherland took place yesterday afternoon from the parlors of the B. C. Funeral Company at 3 o'clock. Interment services were conducted by the Rev. W. L. Clay at the parlors and grave. The employees of the E. & N. railway attended, and the following gentlemen acted as pallbearers: Messrs. G. McKel, A. C. Todd, W. Cox, A. Clunk, H. Heimer, P. Clomford.

Moore-Trieh.—At the residence of H. H. Molony, 72 Frederick street, uncle of the bride, the marriage was celebrated yesterday afternoon of Mae Ariatha, daughter of Mr. and Mrs. J. W. Trieh, of Port Angeles, Wash., and G. Nelson Moore, son of Mr. and Mrs. George Moore, of Bradlock, Pa. Rev. Percival Jones performed the ceremony in the presence of a few friends of the couple. Mr. and Mrs. Moore left last evening for Seattle en route to Bradlock, where they will make their home.

Sentence Reserved.—Ah Why, who was convicted in the city police court last week for having in his possession a number of chickens belonging to Mr. H. B. W. Alkman, and was sentenced to a month with hard labor, was yesterday arraigned in the provincial police court on a similar charge of having in his possession a number of chickens belonging to a resident in the district. He was convicted, but sentence was reserved until this afternoon at 3 o'clock.

Congregational Reception.—Last evening the congregation of the Congregational church rendered a reception to Rev. Dr. McIntosh, of Ottawa, who is visiting Victoria, and bade farewell to Rev. Mr. Reid, of Vancouver. Rev. Mr. McIntosh, of Seattle, was introduced, and he made a short speech, expressing his pleasure at being present. A splendid programme of songs was rendered. Mr. Wheeler's singing being the hit of the evening. Refreshments were served and all who attended spent a most delightful evening.

Tinned Butter.—The famous tinned Canadian butter made by Pierre de Baucourt, of Scott Junction, Quebec, has made a strong bid for favor in this Western country, and no doubt the sales will soon reach as large proportions as in other places where it has been longer known. This butter is now being shown at the Glasgow exhibition, where it has received many flattering notices from the British press. It is the choicest creamery butter, packed after the famous Danish and Norwegian processes, for ship stores, mining and logging camps, for export trade and for every condition wherein butter must retain its original good qualities for an indefinite period. Attention is drawn to the firm's advertisement in another column.

Gentlemen will please note that over one hundred of our best snaps are already gone in suitings, overcoatings and trousers. This in two days of our sale means that it will be a great short time until all are gone. Remember we are really going out of the tailoring trade, and this is a bona fide sale of 75 per cent off wholesale prices. So great are our values that it is no uncommon thing to sell an overcoat for 3 and 4 suits, and several have bought as many as seven. It is early you can buy anything good at half price. To see your opportunity to secure the best goods at less than made prices at Geo. R. Jackson's, 57 Government street.

A Canadian

Globe Girdler

Reaches Victoria on His Journey Around the World From Montreal.

His Companion Was in Russian Prison—Situation in Manchuria.

Among the passengers on the steamer Rijnun Maru, which arrived today from the Orient, was Lorenzo Prince, a newspaper man of La Presse, Montreal, who started out on May 27 in the race around the world in Canada, accompanied by M. Marmon, also of La Presse, whom he left in a Russian prison at Khabarovsk, from where he afterwards escaped and was lost in the Manchurian desert. Mr. Prince expended 1635 roubles in telegraphing to endeavor to obtain news of his companion.

Mr. Prince is 58 days out today. He left Montreal at an hour's notice with Marmon on May 27. The manager of the Rijnun Maru came to him and asked how he would like to race around the world. He agreed provided he had a companion, and an hour later he and Mr. Marmon left for New York, from where they took passage on the Kaiser Wilhelm der Grosse, which broke the record on her eastbound passage, making the run in 5 days 18 hours to Cherbourg, from where they went by slow train to Paris. Twenty-four hours were lost here in getting passports at the different consulates, and next day they left for Berlin, and went thence via Moscow to Moscow. Moscow was reached on June 2, the Emperor's birthday, and as the banks were closed, they lost a day in changing their money and securing tickets.

Next day they started over the transcontinental railway to Irkutsk, where, after a weary journey, they arrived on the night of June 16. They slept there and started next morning for Baikal, on the lake of that name, where they transferred to the steamer. There it was learned by Mr. Prince that the Russian line around Lake Baikal, as intended, for the mountains shore line rises 2,000 feet. Monster car ferry steamers are used to carry the trains across the lake. Messrs. Prince and Marmon went across by steamer, having a rough passage, and arrived next day at the opposite side of the lake, and continued their journey to Manchuria, where they were delayed twenty-four hours on account of a railway accident, a train which was to pass their train having been derailed. However, the line was cleared next day and they continued to Khabarovsk, where they were delayed on account of the passage of the Amur river until mail delay. Prince and his companion decided to go via Manchuria to Vladivostok. Going this way their road were open, regarding the position of Russia in Manchuria. The railway over which they travelled was in course of construction. There were thirteen sections being built to Vladivostok, and over forty thousand Chinese were engaged in the work. The line was being hurriedly constructed, the lightest of material being used and large gangs of workmen placed on all the sections. There is no doubt but that the line is for military purposes, for it would be ridiculous to assume any commercial advantage can be obtained from a line opening up a desert place and such a useless waste of land as is Manchuria. The Manchurian railway is part of the Russian preparation for war in Eastern Asia, and there is no doubt of that. With it in operation there can be rushed to Vladivostok, and that port will take the present position of Port Arthur, which is too far south for Russia's purpose.

From the junction the train traveled over the little ballasted railway to the Manchurian border, and there a gap existed in the line over which the travelers had to make connections by horses and carriages and by horse back. In the 400 miles made in this manner in four days, 172 horses were used. The train was in a manner through a country which was infested with robbers involved continual watchfulness on the part of the travelers. They reached Khabarovsk, the big Chinese city over the Manchurian border, where they arrived on July 22, and changed horses to continue the trip to Hak, the next station, thirty miles away. Arrived there they were arrested.

They asked the Russian commandant for horses, and he said he could not give them any or allow them to proceed. When asked why, he replied that he was afraid they would be killed, and on the travelers saying they were only concerned in that, and were willing to take chances, he still refused. His wife acted as interpreter, speaking French, while the commandant spoke neither French nor English. From her later in the evening they discovered that they had been arrested on suspicion of having stolen eight thousand roubles at Khabarovsk. Two Frenchmen, it seems, had stolen that amount by counterfeiting a bill of 100 francs. They had an accomplice at Khabarovsk, and he had presented the bill of 100 francs, and received eight thousand roubles on account of the bill.

Unfortunately, Marmon had lost his passport during this trouble. He had been driving in a carriage when they arrived at Hak, and Prince was riding on horseback, carrying a Winchester on either side of him. When stopped by the Russian commandant, who had a guard of Cossacks with him, Marmon jumped from the carriage, passport in hand, and demanded that they be allowed to proceed. The commandant promptly took the passport and refused to return it. He then asked Prince for his friend's, said that he had none. They were then arrested and placed in a Cossack hut, dug underground for fear of attacks by Chinese. In the morning they were taken from the hut, placed in a carriage and taken to Khabarovsk, which is the military headquarters for that district.

ORMONDS

Bookstore, - 92 Government St.

There they were searched and 165 photographs which Mr. Prince had secured were taken from his photographic outfit, notes, etc. He appeared at the trial and was told that he had been arrested for traveling without a passport, and his friend for being a troublesome character, who, by talking, was inciting disturbances. Prince wired to the minister of railways, giving the number of his passport, and he was released. Marmon could not remember the number of his, and was held, while Prince was released and continued the journey, leaving Marmon in jail. He left money for him at different points along the route, and hearing that he had escaped, tried to get tidings of him.

Continuing his journey, Mr. Prince passed through the Gingsan (high) mountain on horseback, and had to keep a close look out for robbers, whom he feared by continual bluffing with his Winchester. He fired a large number of cartridges solely to scare away the brigands. Arriving at Boudokato, he found that just outside the village before he arrived there, a Russian officer had been way-laid by "Koon-houses," as the natives called the brigands, and he had killed four of the six who attacked him, with a Smith and Weston revolver. Arriving at Boudokato, Prince saw the four bodies lying in the doorway of the hut in which the police had their station. It was hard on the nerves going through this district, but no matter was made upon the traveler, and Kharbin, the headquarters of the line, was reached safely. This is a Chinese city, which a year ago was taken by the Russians. The palaces and Chinese houses show marks of the bombardment still, and visitors are shown the furrows and torn-up earth where the shots of the artillery landed. Coming through this part of Manchuria, the country looks very desolate. The land is very flat, like great level steps, with scant areas fit for agriculture. It is like the prairie of Canada, only the land is not fertile as in the Dominion, but is useless for farming. The mountains where they are seen rise very abruptly, and strange as it may seem, the trees upon them do not grow vertically. They are of the shape, as in other places, but stand out vertically from whatever angle the mountain takes, in some places standing out almost horizontally with the horizon away out as the great steps. Mr. Prince proceeded to Vladivostok, and arrived there on July 1. Mr. Prince proceeded to Vladivostok, and arrived there on July 4. He left on July 4 for Nagasaki, and went thence by rail to Yokohama, where he caught the Rijnun Maru. In Vladivostok Mr. Prince made an error of judgment, though not having any information about the position of the Russian line, he had known of the departure of the Kinsin Maru on the afternoon of July 3 for Higo, he would have caught the Empress of India at Yokohama on July 6 and arrived here on the 16th, fifty days after he started, and that, too, without using special steamers or trains.

The only customs troubles met with were on the Russian frontier, but then, says Mr. Prince, Russia is hardly a civilized country, at least Russia in Asia. Among the things that annoyed Mr. Prince was a group of deported Russians taken near Irkutsk, who were walking along, carrying their chains, while Cossack guards rode alongside. The prisoners sent to Siberia for political reasons, looked as sad a group as the traveler ever expects to see.

Speaking of the Manchurian question, basing his views on what he saw while in that province, Mr. Prince says that when Russia got its eyes on the Chinese province, the Chinese officials were bribed to allow the Russian occupation of such places as Khabarovsk, Kharbin and other towns of importance, and the bribed officials memorialized the Chinese government that the Russians were the friends of China. Gradually Russia extended its sphere of influence, and when the Russo-Manchurian treaty was ready for signature at St. Petersburg, the Chinese found that Russia had taken too much territory. China refused to sign the treaty, and it is still unsigned, but now, with other moves looking for territory from her, China has consented to throw her lot with Russia, on the basis of choosing the least between two evils. The agreement is still unsigned, however, and according to information received from both Russian and Chinese officials, the Russians have promised the Chinese that they will build the Manchurian railway, which, by the way, they call the Chinese railway, the Russians will then evacuate the province and give both it and the railway to the Chinese government. It is hard to believe that such an arrangement will be carried out, though Russian officials will wink when asked if it is likely to be done. What Russia wants is a direct line to an open port in the North China sea. Port Arthur is too low down, and now Vladivostok is being fortified and made the station of Russian troops, and the direct line of communication is being rapidly opened up to it via Manchuria.

In both Russian Asia and Japan, Mr. Prince found much hatred by the nations for each other, and he was impressed with how wide was the contrast between

GOING TO WINNIPEG.

Mr. Boggs Leaves Tonight for the Bull's Eye of the Dominion.

Beaumont Boggs, secretary of the British Columbia Agricultural Association, will leave by the Chatter tonight, and take tomorrow's Imperial Limited at Vancouver for Winnipeg. Mr. Boggs goes to the Prairie City, as the guest of the Winnipeg Industrial Exhibition Association, to secure information regarding details of management which may be useful to him in connection with the Victoria exhibition. Mr. Boggs takes with him a good stock of advertising matter for distribution along the line and at Winnipeg, and he hopes to secure a number of exhibitors and special attractions for Victoria during his trip. The association is indebted to the Canadian Pacific Railway Company for its courtesy in furnishing the secretary with free transportation to Winnipeg and return. Mr. Boggs expects to be absent about two weeks. During his absence the business of the exhibition office will be attended to by Mr. J. M. Healey, who represented Victoria on the second South African contingent, and a staff of extra clerks, who are busily engaged in addressing and mailing copies of the prize list.

Ladies who contemplate visiting our great cloth sale, will please remember that a few days more, and the snags will all be gone. Geo. R. Jackson's, 57 Government street.

Shooting at Clover Point

Programme and Time Table for
Today of Provincial Rifle
Association.

Portland and Vancouver Crews
Arrive For the Regatta
at Shawnigan.

The following is the programme of to-day's shooting in the annual regatta of the Provincial Rifle Association, which opens this morning at Clover Point range:

NO. 1-TYRO MATCH.
Prizes—\$10, presented by the Lieutenant-Governor of the province of British Columbia. Hon. Sir Henri Joly de Lotbiniere, K. C. M. G., for the encouragement of the shooting, and \$24 added by the B. C. R. A.
Restricted to the 11 Military District who have not at any previous meeting of the B. C. R. A. won a prize of \$25.00 or more, and who have not won a prize at any other Provincial, Dominion or National meeting. In 1897, Entrance fee, 50 cents, including sighting shot.
First prize \$ 5.00
Second prize 4.00
Third prize 3.00
Fourth prize 2.00
Five prizes of \$2 10.00
Eight prizes of \$2 16.00
Seventeen prizes, value \$41.00

NO. 2—WESTMINSTER MATCH.
500 yards; 10 shots. Entrance fee, 60 cents, including sighting shot.
First prize—Westminster Cup and \$8.00
Second prize 7.00
Third prize 6.00
Fourth prize 5.00
Five prizes of \$4 20.00
Six prizes of \$3 18.00
Seven prizes of \$2 14.00
Eight prizes of \$2 16.00
Ten prizes of \$1, restricted to Tyros, 10.00

Thirty-nine cash prizes, value \$89.00
*The cup, presented by the Mayor and Council of Vancouver, to become the property of any competitor winning it twice. Winner in 1897, Gunner R. W. Wilson; in 1898, Captain J. Duff Stuart; 1899, Corporal Fred Richardson; 1900, Private T. D. Pickard, R. M. R.

NO. 3—NANAIMO MATCH.
200 (kneeling) and 600 yards, 7 shots at each range. Entrance fee, 70 cents, including sighting shot.
First prize—Cup and \$8.00
Second prize 7.00
Third prize 6.00
Fourth prize 5.00
Five prizes of \$4 20.00
Six prizes of \$3 18.00
Seven prizes of \$2 14.00
Eight prizes of \$2 16.00
Ten prizes of \$1, restricted to Tyros, 10.00

Thirty-nine cash prizes, value \$89.00
*The cup, presented by the Mayor and Council of Vancouver, to become the property of any competitor winning it twice. Winner in 1897, Gunner R. W. Wilson; in 1898, Captain J. Duff Stuart; 1899, Corporal Fred Richardson; 1900, Private T. D. Pickard, R. M. R.

NO. 4—VICTORIA CORPORATION MATCH.
500 and 600 yards, 7 shots at each range. Entrance fee, 70 cents, including sighting shot.
First prize Cup and \$8.00
Second prize 7.00
Third prize 6.00
Fourth prize 5.00
Five prizes of \$4 20.00
Six prizes of \$3 18.00
Seven prizes of \$2 14.00
Eight prizes of \$2 16.00
Ten prizes of \$1, restricted to Tyros, 10.00

Thirty-seven cash prizes, value \$85.00
*The cup, presented by the Corporation of Victoria, in 1897, to become the property of any competitor winning it twice. Winner in 1897, Gunner R. W. Wilson; in 1898, Sergeant W. H. Lettice; in 1899, Gunner S. G. Mortimore; in 1900, Corporal Fred Richardson, finally. New cup applied for this year.

TIME TABLE.
8:30 to 9 a. m.—Extra series, 500 yards.
9:30 to 10:30 a. m.—Tyro, 500 yards.
10:30 to 12:30 p. m.—Nanaimo match, 200 and 600 yards.
12:30 to 1:30 p. m.—Luncheon.
1:30 to 2:30 p. m.—Nanaimo match, 200 and 600 yards.
2:30 to 6:00 p. m.—Victoria Corporation match, 500 yards.

LAST NIGHT'S MEETING.
The council of the association met last night at the Drill shed, Lt.-Col. Holmes, D. O. C., in the chair. The following members of the council were present: Major White and Pte. Wilson, New Westminster; Capt. J. H. Edwards, Pte. Capt. J. Duff Stuart, Q. M. Sgt. Kennedy and Pte. Bolt, Vancouver; Q. M. Sgt. Winslow and Sgt. Lettice, Victoria, and W. J. McAllan, Nanaimo.
The committee appointed to draft a new constitution presented a report, which was approved. The report will be submitted for ratification at the general meeting of the association to be held on Friday evening after the shooting.
It was decided that the wearing of uniform should be optional in all matches.
In consequence of the government not having furnished free ammunition, competitors will be charged 15 cents per cartridge of 10 rounds, but the money paid will be refunded if the government supplies ammunition later on, or if the competitor replaces the ammunition during the meeting.
Competitors from places where there are no militia corps will be allowed to shoot in the tyro match if otherwise qualified. Men of the regular army and navy will also be allowed to shoot as tyros in all matches except No. 1, if otherwise eligible.
The committee accepted the \$25 donated by a citizen of Victoria as a prize for the best score made at 500 yards by a warrant officer, non-commissioned officer or man of the Imperial forces.

OFFICERS APPOINTED.
The meeting appointed the following match committee:
Major Hayes, R. M. L. L.; Q. M. Sgt. Kennedy, Vancouver; Q. M. Sgt. Winslow, Victoria; Pte. Wilson, New Westminster; Mr. Wall, Nanaimo.
Lt.-Col. Gregory, range officer.
The markers and register keepers will be furnished by the Royal Artillery.
FORMAL OPENING.
Although the shooting begins at 8:30 this morning, the formal opening will be made by Lt.-Col. Holmes, D. O. C., who will fire the first shot in the New Westminster match at 10:30.
All 13 targets will be used during the matches.

Several additional entries have been received and more are expected this morning.

CREWS ARRIVE.
Vancouver and Portland Oarsmen Here For the Regatta.

Yesterday afternoon the Portland crews who are to participate in the regatta at Shawnigan Lake, arrived on the North Pacific and were met at the wharf by representatives from the J. B. A. A., who helped them transport their shells from the boat to the train. They brought over a four-oared shell, one pair oar, and two singles. The visitors put up at the Driard last night, and this morning will proceed to Shawnigan lake, accompanied by J. B. A. A. seniors.

The Portland men are: S. H. Houghton, T. H. Peterson, R. C. Ball, N. E. Smith, R. A. Lamberson, R. C. Hart, E. L. McCabe, Le Conte Stiles, E. O. Gloss, J. H. Stiles, W. J. Patton and W. M. Stiles.

The Vancouver juniors arrived on the Charnier last evening and they also were met by representatives from the J. B. A. A., who assisted them to take their shells to the E. & N. station. The crew will accompany the J. B. A. A. seniors and the Portland crews to Shawnigan lake this morning.

The J. B. A. A. shells, skiffs, canoes, etc., were taken to the train last night and will go to Shawnigan this morning.

The general feeling among the representatives from the Portland Rowing club is that the regatta will be the finest ever held by the N. P. A. A. O. The crews are all in the pink of condition and the course is all that could be desired.

TENNIS TOURNEY.
Entries for the Big Event Close at Five This Afternoon.
The coming tennis tournament which is to be held on the grounds of the Victoria Tennis Club, promises to be a most successful event. Already a large number of entries have been received by the honorary secretary, and as the entry list will not close until 5 p.m. today, a large number are expected. The courts are closed at present and will be in first-class order by the 20th instant. During the week tea will be provided every afternoon, and owing to a large number of first-class tennis matches being expected, there will probably be a large number of spectators daily.

The club hall will be given on August 1 and should prove a great success. Tickets for the week will be on sale at the club grounds, Belcher street. Any player who enters for two events and pays for the same at the time of entering, will be given a weekly ticket. All members who have paid their dues will also receive admission tickets. Tickets for the week are \$1.50, daily 50 cents.

FIFTEEN TO FIVE.
Everett Made Eleven Runs Off Vancouver in One Inning.

Vancouver, July 24.—(Special)—Everett again demonstrated its ability to beat Vancouver at baseball. It would have been a nice game to look at and a very even contest if it had not been for the unfortunate fatal fifth inning, when the Everett batters seemed to suddenly catch Harvey napping and pounded him all over the field, scoring 11 runs. After this unfortunate occurrence, Harvey recovered himself and pitched his old reliable game, but it was too late. Shock was not in his usual form and had a sore hand. He sent several men to bases on balls. Vancouver never has had such a chance to win since Everett's visit to British Columbia, but the splendid support that Shock received from the team out in spite of the Big Everett wonder having had an off day after a hard series of games.

The score by innings was:
Vancouver.....0 1 0 0 0 1 0 3—
Everett.....1 0 0 0 1 1 0 3 9—15

A SOUTHERN BELLE.
Another Important Importation by Mr. T. P. McConnell, the Local Fancier.

Mr. T. P. McConnell has imported from Virginia a splendid white and lemon English setter bitch puppy, Lady Florence. The breeding of this aristocratic canine is of the best, being out of Florence, she by Count Rodgerio, and sired by Joe Wilcox, the English and Sired by Joe Wilcox, the Cincinnati Boy and out of Champion Cincinnati.

SPORTING NOTES.
Messrs. A. T. Goward and R. H. Pooley have gone to Portland to take part in the tennis tournament in that city.

BISHOP OF SASKATCHEWAN.
Probable Appointment of Dean O'Meara to the New See.

It is rumored in clerical circles, says the Winnipeg Telegram, that the Very Reverend James Dallas O'Meara, D.D., dean of Repor's Land, is shortly to be appointed to the bishopric of Saskatchewan. The Right Rev. Bishop Pinkham has been engaged for some time in endeavoring to secure a partition of the diocese of Calgary and Saskatchewan into two separate dioceses and it would seem that his efforts are now to be crowned with success and that Dean O'Meara will be appointed to the newly established see.

Dean O'Meara is well known in Victoria, having visited and preached here several times. He is also prominent in Masonic circles, having occupied the position of grand master for Manitoba, and is a distinguished lecturer on subjects pertaining to the craft. Rev. Dean and Mrs. O'Meara are spending a holiday in the city at present and are guests at Beacon Hill Cottage. Their many friends here will be delighted to hear of the Dean's probable promotion.

If sick headache is misery, what are Carter's Little Liver Pills if they positively cure? People who have used them speak frankly of their worth. They are small and easy to take.

The Soldiers Competitions

The Annual Field Day Held at
the Work Point Barracks
Yesterday.

Sports and Amusements for the
Many Guests of the
Regulars.

The annual athletic sports of the garrison at Work Point, which were held yesterday afternoon, proved a great success. The weather was delightful and the different events being well contested, the very large number of spectators were interested right to the end of the programme. The Fifth Regiment band played a number of popular selections during the afternoon, and a comic band composed of members of the R. A. and R. E., dressed as Darkies, ladies and a khaki hero, afforded great amusement as they paraded round the race course, playing "Just Because She Made Them Goo-Goo Eyes," with life and drum.

Another source of amusement was the white bear. An enterprising Tommy had made up as a Polar bear, and his grotesque antics delighted the children. The Gun shot was used for a refreshment pavilion, and was largely patronized during the afternoon. The officers entertained their friends in the intervals between the races.

The results of the various events were as follows:
Hurdle race—Shot—1st, Collins; 2nd, Conlin; 3rd, Corp. Thorne.
Long jump—1st, Gr. Hussey; 2nd, Conlin; 3rd, Foley.
Throwing the Cricket Ball—1st, Gr. Hussey; 2nd, Hussey; 3rd, Young.
Quarter Mile Race—1st, Foley; 2nd, Hussey; 3rd, Baylor.
Bicycle Race—1st, Beaumont; 2nd, Downey; 3rd, Bugler Harris.
Tug of War—1st, H. M. S. Amphion; 2nd, Royal Engineers; 3rd, H. M. S. Amphion.
Half Mile Flat Race—1st, Foley; 2nd, Baylor; 3rd, Hussey.
Potato Race—1st, Campion; 2nd, Larkin; 3rd, Connors; 4th, Leyspon.
Old Soldier's Race—1st, Sergeant Bennett; 2nd, Sergeant Smith; 3rd, Sergeant Hornechell.
Tilting the Bucket—1st, Welch and Connors; 2nd, Walton and Leeson; 3rd, Ridge and Baylor; 4th, Ancliff and Guthrie.
Bank and File N. Co.'s Race—1st, Bomb. Westerman; 2nd, Foden; 3rd, C. Hinds.
Quarter Mile Open—Army, Navy and Military, 1st, Foley; 2nd, Spr. Atkinson; 3rd, Seaman Bird.
Hurdle Race—1st, Gr. Baylor; 2nd, Hall; 3rd, Downey.
Three-Legged Race—1st, Connors and Downey; 2nd, Atkinson and Lockwood; 3rd, Welch and Leeson.
Sergeant's Race—1st, Berrett; 2nd, Hornechell; 3rd, Smith.
Consolation Bicycle Race—1st, Clark; 2nd, Williams; 3rd, Corp. Hinds.
Officers' Race—1st, Lieut. Col. Holmes; 2nd, Major Wynne; 3rd, Capt. Knowling, R. N.
Map Tournament—1st, Welch and Connors; 2nd, Duizman and Ridge; 3rd, Willey and Snellman.
One Mile Open—1st, Downey; 2nd, Baylor; 3rd, Hall.
Foot Race—1st, Welch; 2nd, Baylor; 3rd, Atkinson; 4th, Godwin.
Sack Race—1st, Atkinson; 2nd, Hinds; 3rd, Lockwood; 4th, Guthrie.
Wheelbarrow Race—1st, Godwin; 2nd, Hinds; 3rd, Ridge.
Hand Race (Fifth Regiment)—1st, North; 2nd, Douglas; 3rd, Anderson; 4th, Tennant.
Obstacle Race—1st, Atkinson; 2nd, Watson; 3rd, Hinds; 4th, Carmichael.
Consolation Race—1st, Ridge; 2nd, Doyle; 3rd, Walters.
Jig Dancing—1st, Carlross, R. E.; 2nd, Connors, R. N.; 3rd, Maskey, R. N.; 4th, Swiddle, R. N.

The weather has also been admirably suited for dairying and stock raising. The grass is thick and rich and new hay most abundant. Experiments have been made just outside Winnipeg with what is known as German grass and the fields sown with this stuff attract many visitors. It is reckoned that there will be 2½ million acres of this grass in the prairie and cheese produced in Manitoba was valued at \$1,200,000; this year, so experts say, it will amount to \$2,000,000. Last year 45,000 head of cattle were exported to the ranches in the Territories to England and to the United States. The shipment of stockers to the States reached large proportions a few years ago when the American ranches had run bare, but only 3,000 were sent last year whilst 25,000 were sent to our own ranches. This year Manitoba will send nearly 25,000 head of cattle to England or the older provinces and probably 30,000 stockers to the ranches in the Territories, besides two or three thousand to the United States. Eastern people will have an opportunity of seeing some Manitoba prize cattle at the Pan American Exposition. Bon-Acc, a well known wholesale butcher of Winnipeg, is sending half a dozen prime ones there; he has a heifer that weighs 2,300 pounds. Unfortunately it is a long journey to Buffalo and breeders of thoroughbred cattle do not care to ship in the hot weather or even in the fall.

The brilliant prospects are causing much activity in business. Travellers for eastern houses are more numerous than ever before, and some of them it is feared, are selling and giving credit a little too freely. The implement men are doing a large trade and there is a brisk demand for lumber. Mining in British Columbia is somewhat under the weather just now; nevertheless a great deal of prospecting is being done and being shipped from Manitoba and the Territories to the Kootenays. A considerable amount of railway building is going on. Just now, while waiting for the harvest, the farmer is summer fallowing and paying \$30 per month with board for labor.

It is estimated that it will be necessary to bring 15,000 laborers from the older provinces to reap the crop, and as time is pretty good in Eastern Canada, it may be difficult to procure them. In Minnesota and the Dakotas, where the calculate on having 200,000,000 bushels of wheat, labor is brought from St. Paul, Minneapolis and other large cities near by, and even the hobo or tramp is hired. Here in Manitoba we have not many tramps and it is well-nigh impossible, with Winnipeg corporation laborers demanding 20¢ an hour, to get help in this city for the farmer. Hitherto the agents of the Canadian Pacific Railway have hustled for a supply of harvest hands, who have been carried to

Pleasant Garden Fete.—A pleasant function was held in aid of St. Andrew's Presbyterian church in the grounds of the residence of the pastor, Rev. W. Leslie Clay on Blenkins Walk, yesterday afternoon and evening, when the ladies gave their garden fete. The lawn and grounds were prettily decorated and many booths were arranged in convenient and shaded spots. The one side was the refreshment booth in charge of Mrs. McKilligan, Mrs. R. A. McKilligan, Misses Clarke, Rennie and other young ladies, and at the other side of the house was an ice cream booth in charge of Mrs. Houston, Miss Hunter and Miss Renwick, a candy and flower booth under the supervision of Misses Haines, Ross and McKilligan, and a stand where much amusement was to be derived in the effort to attack the donkey's tail, in charge of the Misses Maggie and Annie Murray. Longfield's orchestra was in attendance, and discoursed a programme of sweet music from their stand at the side of the residence. In the evening the grounds were prettily illuminated by long strings of incandescent lights.

THE WESTERN
WHEAT FIELDS

Interesting Figures on the Crop Prospects of Manitoba and North West.

The following interesting review of the crop prospects in the Northwest is from the Winnipeg correspondent of the Ottawa Citizen. Incidentally it shows the necessity of the British Columbia farmer to keep alive to his opportunities as the Manitoba people recognize the value of the market afforded by the rich mining districts in this province.

The copious rainfall throughout June, with the finer weather which has since set in, has had an excellent effect upon crops of all kinds. There are many who believe that the wheat yield will reach 50,000,000 bushels, while the minimum estimate is 40,000,000. This is for Manitoba alone. For the Territories it is impossible to get anything like accurate figures of the area under crop, the department of agriculture at Regina being in the habit of dealing exclusively with the threshing returns after each harvest. It is allowed on all hands, however, that the wheat yield will be about 50 per cent. in excess of that in 1899, in which case it will amount to something over 10,000,000 bushels, with 6,000,000 bushels of oats and 500,000 of barley.

Hence it is probably well within the mark to say that Manitoba and the Territories together will have 55,000,000 bushels of wheat this year, or deducting 10,000,000 for food and seed, 45,000,000 for export to the older provinces and the United Kingdom. The largest crop on record in the Northwest was that of 1895 when 32,000,000 bushels of wheat were reaped in Manitoba and 3,500,000 in the Territories. But the area under wheat in Manitoba in that year was only 1,140,000 acres, whereas this year the area exceeds 2,000,000. The wheat crop in the Northwest is, therefore, not only larger in area, but also in yield. There will be an aggregate yield in Manitoba of 80,000,000 bushels at least, since the oat crop, although slightly damaged in places by grubs and worms, is sure to amount to 25,000,000 whilst barley will exceed 7,000,000. The reports show that the yield of flax, potatoes and roots will be a prolific one; in short, taking it all round, this is by odds the fattest year we have ever had in the Northwest.

But the area under wheat in Manitoba in that year was only 1,140,000 acres, whereas this year the area exceeds 2,000,000. The wheat crop in the Northwest is, therefore, not only larger in area, but also in yield. There will be an aggregate yield in Manitoba of 80,000,000 bushels at least, since the oat crop, although slightly damaged in places by grubs and worms, is sure to amount to 25,000,000 whilst barley will exceed 7,000,000. The reports show that the yield of flax, potatoes and roots will be a prolific one; in short, taking it all round, this is by odds the fattest year we have ever had in the Northwest.

The weather has also been admirably suited for dairying and stock raising. The grass is thick and rich and new hay most abundant. Experiments have been made just outside Winnipeg with what is known as German grass and the fields sown with this stuff attract many visitors. It is reckoned that there will be 2½ million acres of this grass in the prairie and cheese produced in Manitoba was valued at \$1,200,000; this year, so experts say, it will amount to \$2,000,000. Last year 45,000 head of cattle were exported to the ranches in the Territories to England and to the United States. The shipment of stockers to the States reached large proportions a few years ago when the American ranches had run bare, but only 3,000 were sent last year whilst 25,000 were sent to our own ranches. This year Manitoba will send nearly 25,000 head of cattle to England or the older provinces and probably 30,000 stockers to the ranches in the Territories, besides two or three thousand to the United States. Eastern people will have an opportunity of seeing some Manitoba prize cattle at the Pan American Exposition. Bon-Acc, a well known wholesale butcher of Winnipeg, is sending half a dozen prime ones there; he has a heifer that weighs 2,300 pounds. Unfortunately it is a long journey to Buffalo and breeders of thoroughbred cattle do not care to ship in the hot weather or even in the fall.

The brilliant prospects are causing much activity in business. Travellers for eastern houses are more numerous than ever before, and some of them it is feared, are selling and giving credit a little too freely. The implement men are doing a large trade and there is a brisk demand for lumber. Mining in British Columbia is somewhat under the weather just now; nevertheless a great deal of prospecting is being done and being shipped from Manitoba and the Territories to the Kootenays. A considerable amount of railway building is going on. Just now, while waiting for the harvest, the farmer is summer fallowing and paying \$30 per month with board for labor.

It is estimated that it will be necessary to bring 15,000 laborers from the older provinces to reap the crop, and as time is pretty good in Eastern Canada, it may be difficult to procure them. In Minnesota and the Dakotas, where the calculate on having 200,000,000 bushels of wheat, labor is brought from St. Paul, Minneapolis and other large cities near by, and even the hobo or tramp is hired. Here in Manitoba we have not many tramps and it is well-nigh impossible, with Winnipeg corporation laborers demanding 20¢ an hour, to get help in this city for the farmer. Hitherto the agents of the Canadian Pacific Railway have hustled for a supply of harvest hands, who have been carried to

Pleasant Garden Fete.—A pleasant function was held in aid of St. Andrew's Presbyterian church in the grounds of the residence of the pastor, Rev. W. Leslie Clay on Blenkins Walk, yesterday afternoon and evening, when the ladies gave their garden fete. The lawn and grounds were prettily decorated and many booths were arranged in convenient and shaded spots. The one side was the refreshment booth in charge of Mrs. McKilligan, Mrs. R. A. McKilligan, Misses Clarke, Rennie and other young ladies, and at the other side of the house was an ice cream booth in charge of Mrs. Houston, Miss Hunter and Miss Renwick, a candy and flower booth under the supervision of Misses Haines, Ross and McKilligan, and a stand where much amusement was to be derived in the effort to attack the donkey's tail, in charge of the Misses Maggie and Annie Murray. Longfield's orchestra was in attendance, and discoursed a programme of sweet music from their stand at the side of the residence. In the evening the grounds were prettily illuminated by long strings of incandescent lights.

THE WESTERN
WHEAT FIELDS

Interesting Figures on the Crop Prospects of Manitoba and North West.

The following interesting review of the crop prospects in the Northwest is from the Winnipeg correspondent of the Ottawa Citizen. Incidentally it shows the necessity of the British Columbia farmer to keep alive to his opportunities as the Manitoba people recognize the value of the market afforded by the rich mining districts in this province.

The copious rainfall throughout June, with the finer weather which has since set in, has had an excellent effect upon crops of all kinds. There are many who believe that the wheat yield will reach 50,000,000 bushels, while the minimum estimate is 40,000,000. This is for Manitoba alone. For the Territories it is impossible to get anything like accurate figures of the area under crop, the department of agriculture at Regina being in the habit of dealing exclusively with the threshing returns after each harvest. It is allowed on all hands, however, that the wheat yield will be about 50 per cent. in excess of that in 1899, in which case it will amount to something over 10,000,000 bushels, with 6,000,000 bushels of oats and 500,000 of barley.

Baby Laughs

When mother gives him Baby's Own Tablets; they taste good and make him well and happy. They are mother's help and baby's every day friend. Contain no "sleepy" drugs, no poisonous "soothing" stuff. Nothing harsh or griping.

Baby's Own Tablets

REGISTERED

Allay the irritation accompanying the cutting of teeth, cleanse the bowels, prevent diarrhoea, aid digestion, cure colic, and all the common ills of little ones.

No cross, crying children, and no sleepless nights for mother in homes where Baby's Own Tablets are used.

Mrs. David Cooper, Oak Point, N. Y., writes:—"Baby's Own Tablets are an indispensable medicine in every home where there are infants and young children."

Sold by druggists or sent post-paid on receipt of price (25 cts. a box) by addressing THE DR. WILLIAMS MEDICINE CO., BROCKVILLE, ONT.

The Northwest and back at a very low rate. Last year, a year of drought with constant rain during harvest, about 2,000 men came west to work in the harvest fields. This year the Canadian Pacific will do all it can to supply the demand but the farmers themselves must also look out and get their friends in the east to hire men. The trouble is that, owing to the use of farm machinery in plowing and seeding, there is not much call for labor except for a month or six weeks during harvest and threshing.

Mr. Obed Smith, commissioner of immigration, reports that new arrivals from Europe this year are of a superior class. For some reason or other immigration from the United Kingdom has shown a falling off lately, but there has been an increase in the immigration from continental countries, more especially from Belgium and Sweden. The great feature, however, is the rapid growth of immigration from the United States. It is believed that over 20,000 Americans, having both capital and experience, will enter Alberta this year. Last year several thousand settled along the Edmonton and Calgary branch of the Canadian Pacific north of the main line. This year they are settling for the most part round about Beaver Hill Lake, Buffalo Lake, the North Saskatchewan and Pigeon Lake. As a rule they go in for mixed farming, which is a lucrative business in that section. British Columbia affords them a profitable local market for their beef, flour, oats, pork, eggs, butter and vegetables. The Canadian Pacific has just made important concessions to the Manitoba Dairy association for the transport of stuff for British Columbia. It is worth noting, as a matter of news and nothing else, that the American settlers in Alberta, including the Mormons of the Cardston colony, who by the way do not practise polygamy, are disposed to ask the Dominion Parliament to impose higher duties on American products. The American duties are so high and the valuation on which they are levied so excessive, that Canadian products are shut out of the United States market altogether; and for this reason many argue that Canada in turn should exclude American farm produce from the British Columbia market and preserve it, as far as possible, for the Canadian settlers of the Rocky mountains who has no other market to look to.

Altogether the outlook for the Canadian Northwest just now could not very well be better. Merchants here, however, are urging country storekeepers to keep their heads level and collect all they can this year without giving too many new credits. This prudent advice is being generally followed. The resources of the Canadian Pacific will be taxed to the utmost in moving wheat to Lake Superior, but the company is alive to the situation and is procuring new rolling stock and locomotives from Canadian and American shops as fast as they can turn them out.

300 Acres North Saanich

This magnificent property, charmingly situated, consists of 300 acres of first class farming land, 150 acres of which are under cultivation, the balance being bush land, 100 acres of which being alder land of the best quality, easily cleared.

This property is for sale at a very low figure, and is probably the greatest bargain ever offered in the way of first-class farming property in Saanich.

PEMBERTON & SON, - 45 Fort Street

THE WEATHER.

Meteorological Office
Victoria, July 25—8 p. m.
SYNOPSIS.
High barometric pressure still hovers off the coast, while from Cariboo southward to Utah the barometer is low. These conditions are causing fair warm weather throughout the Pacific slope, which is likely to continue for several days. In the Territories and Manitoba the weather is comparatively cool and showery, while in the Sacramento Valley the temperature has risen to 100.

TEMPERATURE	Min.	Max.
Victoria	50	65
New Westminster	46	70
Kamloops	38	70
Barkerville	35	70
Calgary	54	68
Winnipeg	52	74
Portland Ore.	52	74
San Francisco	50	60

Thursday, July 25.
Victoria and Vicinity: Moderate or fresh winds, generally fair today and Friday. Stationary or higher temperature.

Lower Mainland: Light or moderate winds, continued fair and warm today and Friday.
- VICTORIA DAILY RECORD.

Report for 24 hours ending 5 p. m. Observations taken daily at 5 a. m., noon and 5 p. m.
WEDNESDAY, JULY 24.
Day: 51 Mean: 57
Night: 42 High: 62
5 p. m.: 45 Low: 50
The velocity and direction of the wind were as follows:
5 a. m.: 4 miles southwest.
8 a. m.: 8 miles south.
5 p. m.: 12 miles southwest.
Average state of weather—Fine.
Sunshine—13 hours.
Barometer at noon: Observed, 30.127
Corrected, 30.125

NEW WESTMINSTER.

Barometer at 5 p. m.—Corrected, 30.060

ONLY A LITTLE BACKACHE.

That is the first unmistakable symptom of diseased kidneys, an ailment which no one can neglect without inviting Bright's disease, diabetes, rheumatism and the most painful and fatal maladies. At the first sign of backache and urinary disorders use Dr. Chase's Kidney-Liver Pills and you can be certain of prompt relief and cure. One pill a dose, 25 cents a box.

VICTORIA TIDES.

For the Month of July, 1901.

(Issued by the Tidal Survey Branch of the Department of the Marine and Fisheries, Ottawa.)
The zero of the accompanying scale corresponds to the average lowest yearly tide, and 18.3 feet above the sill of the Esquimalt Dry Dock.

The time used is Pacific Standard for the 120 meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The height is in feet and tenths of a foot.
